User roles

Application offers several user roles:

- Customer
- Operator
- Validator
- Administrator

Each allowed action for each user role is specified in the table below.

Action	Customer	Operator	Validator	Administrator
Update own user profile and password	Yes	Yes	Yes	Yes
View, create and update infotainment manufacturers	No	Yes	Yes	Yes
Delete infotainment manufacturers	No	No	No	Yes
View, create and update serializer manufacturers	No	Yes	Yes	Yes
Delete serializer manufacturers	No	No	No	Yes
View infotainments	Yes ¹	Yes	Yes	Yes
Create and update infotainments	No	Yes	Yes	Yes
Assign infotainments to users	No	No	No	Yes
Delete infotainments	No	No	No	Yes
List infotainment profiles	Yes ¹	Yes	Yes	Yes
View, create and update infotainment profiles	No	Yes	Yes	Yes
Download infotainment profiles	Yes ^{1 above1}	Yes	Yes	Yes
Approve infotainment profiles	No	No	Yes	Yes
Delete infotainment profiles	No	No	No	Yes
List, create, update and delete users	No	No	No	Yes
List deleted users, recover and permanently delete users	No	No	No	Yes
Assign infotainments to users	No	No	No	Yes

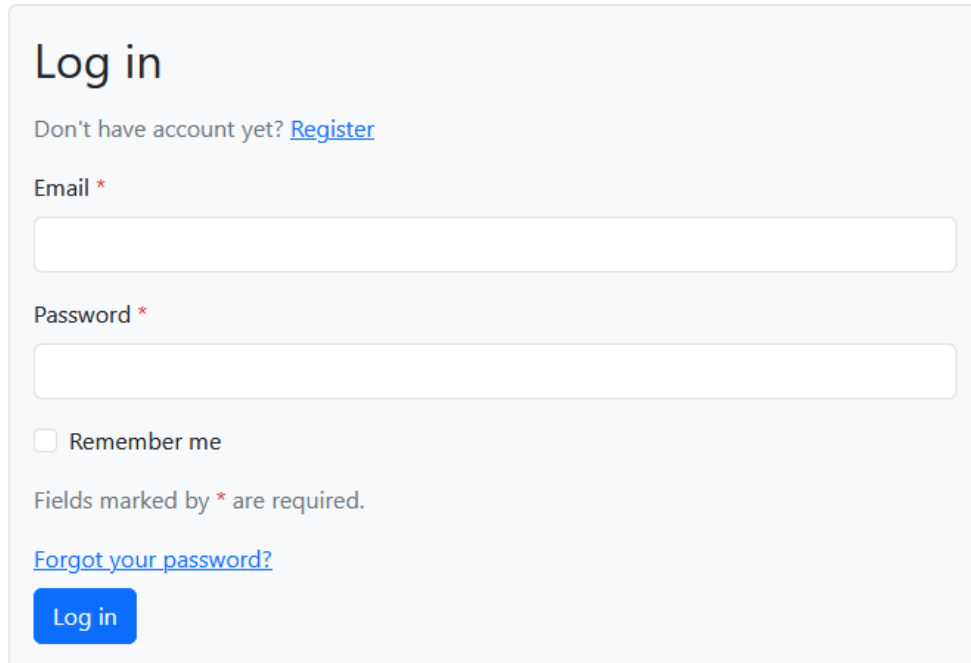

¹ Only assigned infotainments

Basic controls

Login screen

You can log in via the login form shown on screenshot below, which is available after accessing the application in your browser.

Infotainment database

The screenshot shows a login form titled "Log in" within a light gray box. At the top, it says "Don't have account yet? [Register](#)". Below this are two input fields: "Email *" and "Password *", both with red asterisks indicating they are required. The "Email" field is a simple text input, while the "Password" field is a password input with a small eye icon to toggle visibility. Below the password field is a checkbox labeled "Remember me". At the bottom, there is a link "[Forgot your password?](#)" and a blue "Log in" button.

If you have forgotten your password, click the “Forgot your password?” link where you can request a reset password email.

If you do not have an account yet, you can use the “Register” link to create one.

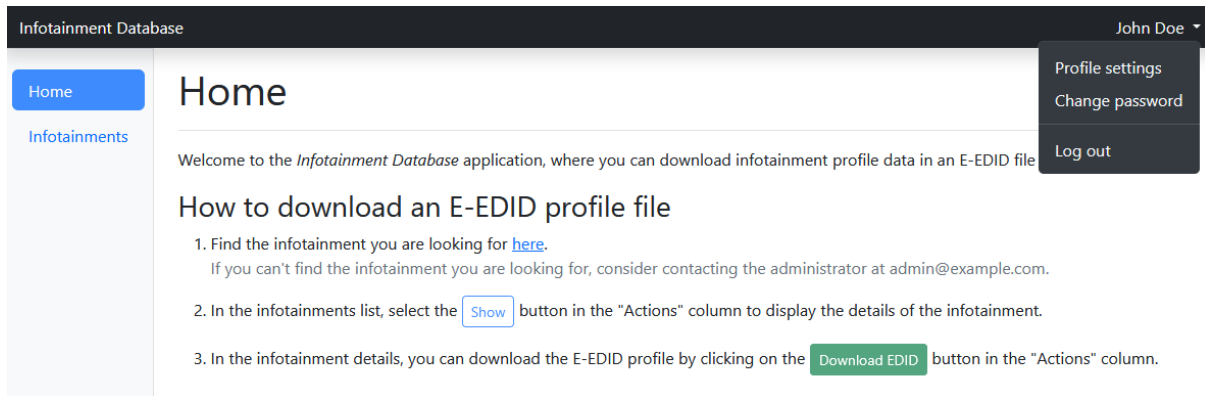

Note: You can access the application only when your account is manually approved by the site administrator, you will receive email notification upon approval. If your account is not approved or has been deleted, you will be displayed a message preventing you from accessing the application.

Application layout

The base application layout is shown on the screenshot below (example for a user with Customer role). The layout is same for all roles.

- Top bar (header): contains the application name, and on the right, the logged-in user’s name. Clicking on your name opens a dropdown menu with links to Profile settings, Change password and Logout.
- Left side: the main navigation menu. Menu items vary depending on the user role.

- Right side of the menu: main content, on the screenshot below is shown a quick tutorial for Customer user role.

Filling in forms

Some form inputs may include a note specifying valid input values.

If invalid data is entered, an error message will be displayed, and the invalid fields will be highlighted in red with an explanation of the issue. Example is shown in the screenshot below.

Some fields (highlighted in red) contains errors, please correct them.

Name *

!

This field is required.

Fields marked with asterisk (“*”) are required.

Editing your profile

You can edit your profile settings by clicking the link “Profile settings” in the dropdown menu shown in section “Application layout”. Here, you can update your name.

To change your email address, please contact the site administrator.

Changing your password

You can change your password by clicking the link “Change password” in the dropdown menu shown in section “Application layout”.

Listing infotainments

Click the “Infotainments” menu item to view a list of assigned infotainments, as shown in the screenshot below.

You can filter infotainments (note: not all columns support filtering). You can change numbers of displayed items per page using the dropdown in the bottom-right corner. These options are available on all pages with list of entities.

Click the “Show” button to display detail of a selected infotainment.

Downloading infotainment profile

In the infotainment detail view, approved profiles are listed. If no approved profiles are available, all unapproved profiles will be shown, along with a warning to use them at your own risk.

Users with the Operator role or higher can see all profiles (both approved and unapproved).

To download a specific infotainment profile in E-EDID format, click the “Download EDID” button next to the selected profile.

Users with the Operator role or higher can download the profile in E-EDID format also from the profile detail page (using the “Show” button). Unapproved profiles can be downloaded only from profile detail page for these users.
